

[All Products](#) / [Optics](#) / [Diffraction Gratings](#) / [Transmissive Diffraction Gratings](#)

Transmission Grating Beamsplitters

- Ideal for Laser Beam Division
- Designed for 0 Degree AOI
- Low Groove Density for Maximized Beam Separation

Common Specifications

Physical & Mechanical Properties

Clear Aperture (%):	90	Construction:	Blazed Grating
Thickness (mm):	3.00 ±0.5		

Optical Properties

Design Wavelength DWL (nm):	632.8
Substrate:	B270
