

[All Products](#) / [Testing and Detection](#) / [Detectors](#)

Free-Space Photodetector Modules

- Compact Design for Easy System Integration
- Si or InGaAs Photodetectors Ranging from 200 - 1700nm
- Biased or Amplified Models Available

Common Specifications

Environmental & Durability Factors

Operating Temperature (°C):

10 - 50

Technical Information

Products

Title	Stock Number	Price	Buy
200 - 1100nm Biased Si Free-Space Photodetector	#29-514	₹19,620	1 In Stock
320 - 1100nm Biased Si Free-Space Photodetector	#29-515	₹21,960	4 In Stock
800 - 1700nm Biased InGaAs Free-Space Photodetector	#29-516	₹35,460	1 In Stock
320 - 1100nm Amplified Si Free-Space Photodetector	#29-517	₹32,670	1 In Stock
350 - 1100nm Amplified Si Free-Space Photodetector	#29-518	₹27,990	2 In Stock
