PRODUCT DETAILS

- Cage Rods Provide Rigid Support for Cage System Structure
 - Polished 416 Stainless Steel for High Durability and Smooth Motion
 - M3 Mounting Holes in Each End
 - 3mm Cage System Rods Also Available
- TECHSPEC® 6mm Cage System Support Rods are constructed of polished 416 stainless steel. Cage rods are used to provide rigidity and support to cage system structures. Each cage support rod features a polished surface that ensures smooth plate movement and precision alignment. Also, each cage support rod features M3 tapped holes on the ends for additional mounting flexibility. A variety of lengths are available for any application need.
